- (b) Other installations underground are stated to be:-
 - (1) New factories in the chemical centre of DZERZHINSK.
 - (ii) Electric power stations and hangars for military aerodromes in ARMENIA.
 - (iii) Hangars for military aerodromes in the VLADIVOSTOK area.
- (c) some subterranean factories have light metal chimneys above ground which can be retracted 50X1-HUM underground when the need arises.

4. OTHER FACTORIES

- (a) One of the main aircraft-engine factories and experimental centres in Russia is situated in the restricted area of CHERNIGOVCHI near UFA. German technicians are employed in this factory, beside which large numbers of British, American and captured German planes of the last war models can be seen.
- (b) German technicians are also working in a large aluminium Declassified in Part Sanitized Copy Approved for Release 2012/03/06: CIA-RDP83-00415R003300060011-6
